

PRESSEMITTEILUNG

New member of the MOSOLF Advisory Board

Detthold Aden joins MOSOLF Advisory Board for future topics

Kirchheim unter Teck, 8 January 2019 - The MOSOLF Group is expanding its Advisory Board, founded in January 2018, by Detthold Aden, who is now advising the Management Board of MOSOLF SE & Co. KG with his entrepreneurial expertise in future topics.

"With Detthold Aden, MOSOLF not only wins an outstanding managerial personality and an impulse generator in logistics. With decades of experience, proven logistics know-how and his network, Detthold Aden will be a valuable support to MOSOLF in identifying, analyzing and implementing the diverse logistics challenges", says Dr. Jörg Mosolf, CEO at MOSOLF.

Detthold Aden, member of the Logistics Hall of Fame and Chairman of the Executive Board of the BLG Logistics Group until 2013, joins the MOSOLF Advisory Board as another specialist. In addition to Aden as its fourth member, the Advisory Board consists of well-known personalities of the automotive industry from various disciplines: Hans-Jörg Hager, former CEO at Schenker, Jorgen Olesen, former logistics and IT chief at Mazda Motors Europe, and Prof. Dr. Willi Diez, Head of the Institute of Automotive Economics at the University of Applied Sciences Nürtingen-Geislingen. Together with the Executive Board, the Advisory Board aims to identify relevant future topics in automotive logistics and to define suitable measures.

About the MOSOLF Group: system services from one source

The MOSOLF Group is one of the leading system service providers for the automobile industry in Europe. The range of services at the family business, which was founded in 1955 and has its headquarters in Kirchheim unter Teck, includes tailor-made logistics, technical and service solutions. They are provided through a network of business sites across Europe and a multi-modal fleet that combines different modes of transport. The MOSOLF Group is organised into four central business units: Releasing Solutions, Transport Solutions, Logistics & Services and Retail Solutions.

The MOSOLF Group's services cover the complete value-added chain for automobile logistics: from the end of the conveyor belt to recycling. In addition to transporting vehicles (cars, light commercial vehicles, "high & heavy"), its business operations include workshop services, special vehicle construction, industrial coatings, mobility services, releasing agent services and vehicle recycling. MOSOLF provides all-round, customised solutions within this context for the automobile industry, fleet operators and car dealers from one source and also handles the associated data flow by means of modern software solutions.
